Mr. Larry E. Gadbois  
100-K Area Cleanup Project Manager  
U.S. Environmental Protection Agency  
309 Bradley Boulevard, Suite 115  
Richland, Washington 99352

Dear Mr. Gadbois:

TRANSMITTAL OF DOE/RL 2005-33, REVISION 1, 100-K AREA INTERIM SAFE  
STORAGE AND D4 PROJECT WASTE SAMPLING AND ANALYSIS PLAN

0071837

Enclosed are two (2) copies of Revision 1, 100-K Area Interim Safe Storage and D4 Project Waste Sampling and Analysis Plan, for your information. A courtesy copy is being provided to the State of Washington Department of Ecology. All comments received have been incorporated.

The sampling and analysis plan presents the strategy, requirements, and procedures for sampling and analysis activities that supports waste management decisions associated with interim safe storage of the 100-K Area reactors and deactivation, decontamination, decommissioning, and demolition of associated 100-K Area ancillary facilities. This revision covers all of the 100-K Area facilities, including the reactors, whereas Revision 0 covered only 27 ancillary facilities.

If you have any questions regarding this document, please contact Chris Smith, of my staff, on (509) 372-1544.

Sincerely,

  
Joe R. Franco, Assistant Manager  
for the River Corridor
